USER INTERFACE DESIGN

EXPERIMENT 9: Design Input Forms with Validation using HTML, CSS and JavaScript

NAME: ROSHNI R

REG NO: 240701443

AIM:

To design input forms that validate user data such as email address and phone number, and display appropriate error messages using HTML, CSS and JavaScript.

PROCEDURE:

Step 1: Creating the HTML Form

Created an HTML form containing the following input fields:

1. Email Address
2. Phone Number
3. Submit Button

Used elements to display validation error messages.

Step 2: Styling the Form using CSS

Applied CSS styling to improve the appearance of the form:

- Center aligned form container
- Background color

- Padding and border radius
- Styled input boxes
- Green submit button
- Red error messages
- Responsive layout

Step 3: Adding JavaScript Validation

Used JavaScript to validate user inputs when the Submit button is clicked.

Email Validation:

Checks whether email contains:

- Username
- @ symbol
- Valid domain like .com

Phone Number Validation:

Checks whether:

- Contains only digits
- Has 10 digits length

Step 4: Displaying Error Messages

If invalid input is entered:

- Invalid Email → Displays red error message

- Invalid Phone Number → Displays red error message

If both are valid:

- Displays success message.

CODE:

UID.HTML:

```
<link rel="stylesheet" href="style.css">

<div class="container">

 <form id="myForm">

 <label>Email:</label>

 <input type="text" id="email">

 <span id="emailError" class="error"></span>

 <label>Phone Number:</label>

 <input type="text" id="phone">

 <span id="phoneError" class="error"></span>  <button

type="submit">Submit</button>  <p

id="success"></p>

 </form>
```

```
</div>

<script src="script.js"></script>
```

STYLE.CSS:

```
body{   margin:0;   padding:0;
font-family:Arial, sans-serif;
 background:linear-gradient(to
right,#74ebd5,#9face6);  height:100vh;   display:flex;
justify-content:center;   align-items:center;  }

.container{   background:white;
padding:30px;   width:350px;   border-
radius:15px;   box-shadow:0 8px 20px
rgba(0,0,0,0.2);  }

h2{   text-
align:center;
margin-bottom:20px;
color:#333;  }

form{   display:flex;
flex-direction:column;
}

label{   margin-
top:10px;
margin-bottom:5px;
font-weight:bold;
color:#444;  }

input{   padding:12px;
border:1px solid #ccc;
border-radius:8px;
font-size:15px;
}

input:focus{
outline:none;   border-
color:#6c63ff;
}
```

```
button{   margin-
top:20px;
padding:12px;
background:#6c63ff;
color:white;
border:none;   border-
radius:8px;   font-
size:16px;
cursor:pointer;
}

button:hover{
background:#5848e5;
}

.error{
color:red;   font-
size:13px;
margin-top:3px;
}

#success{
color:green;   text-
align:center;   margin-
top:15px;   font-
weight:bold;
}
```

SCRIPT.JS:

```
document.getElementById("myForm").addEventListener("submit",
function(e){
e.preventDefault();

let email=document.getElementById("email").value; let
phone=document.getElementById("phone").value;

document.getElementById("emailError").textContent="";
document.getElementById("phoneError").textContent="";
document.getElementById("success").textContent="";
```

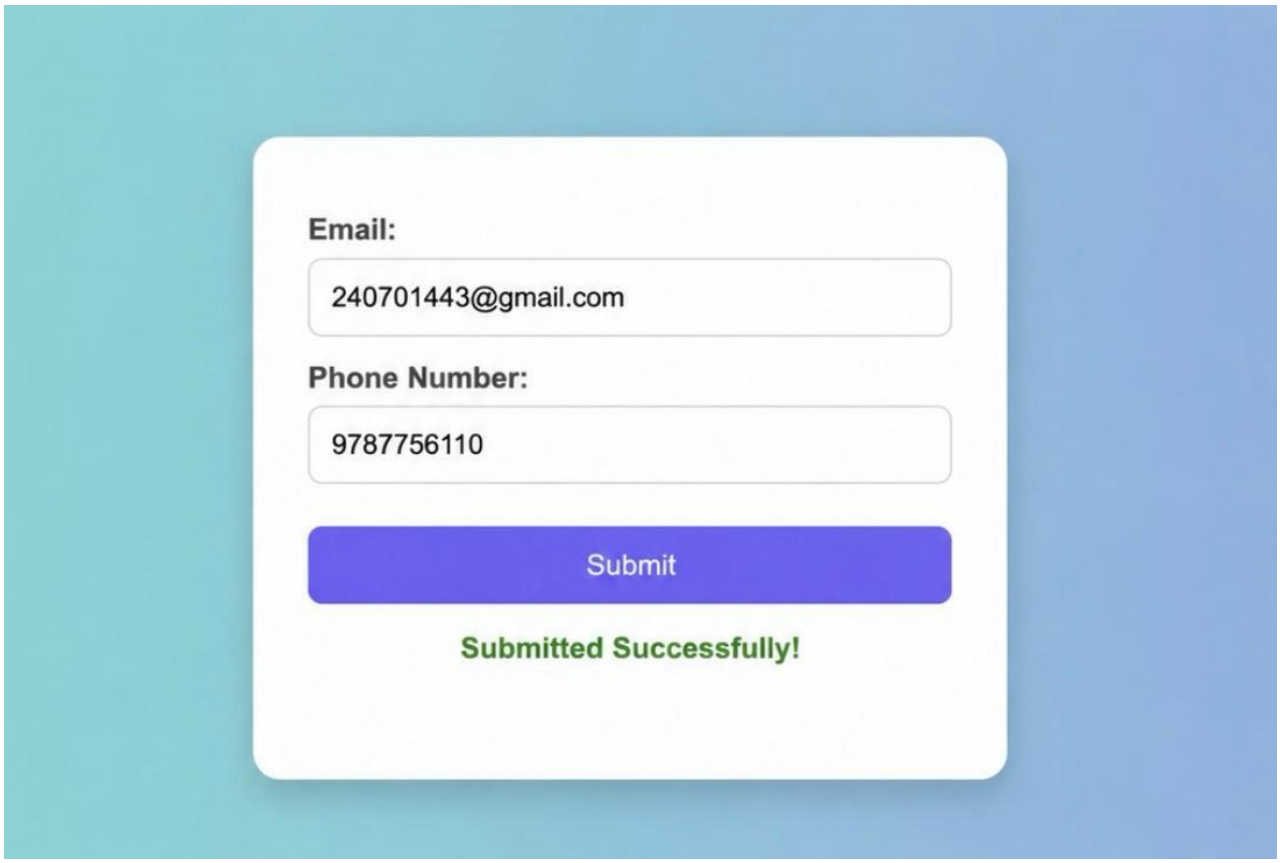
```
if(!email.includes("@")){
document.getElementById("emailError").textContent="Invalid Email"; }

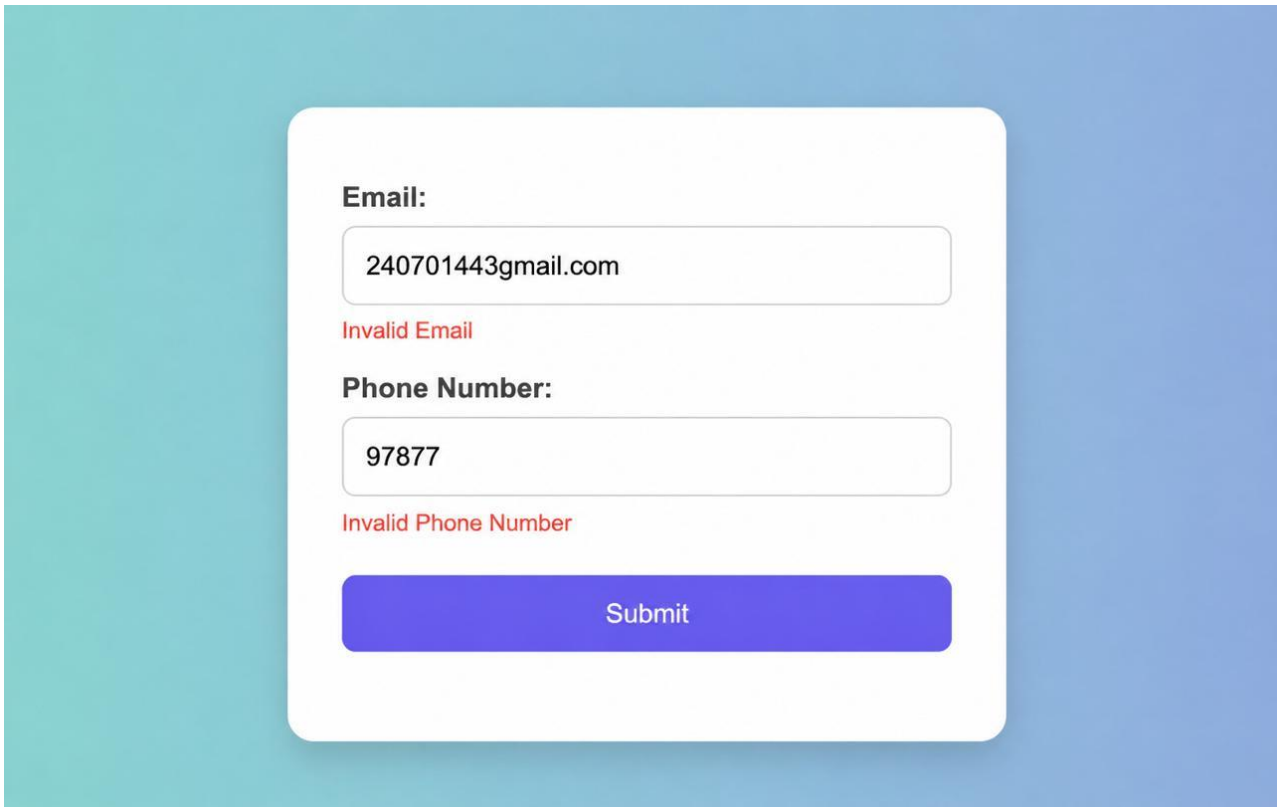
if(phone.length!=10){
document.getElementById("phoneError").textContent="Invalid Phone Number"; }

if(email.includes("@") && phone.length==10){
document.getElementById("success").textContent="Submitted Successfully!"; }

});
```

OUTPUT:





Email:
240701443gmail.com
Invalid Email
Phone Number:
97877
Invalid Phone Number
Submit
